**4 Bed, 3 Bath, 3,248 Sqft.  
2.05 Acres, 4 Stall Garage**

A deep ice cold mountain lake fed by a bubbling stream greets you just yards from a magnificent log home. The home has 4 large bedrooms, a big loft overlooking the great room, a game room on the lower level and hundreds of feet of deck/covered porch that wrap around the home. You could easily sleep 20 people in this home. The loft in the top of the barn could be a play house or man cave. The home was totally remodeled and updated in the last year. High end fixtures, kitchen, and bathroom accessories are just a few of the 150 updates this home received recently. This home is being sold mostly furnished. A private subdivision at elevation 8,900 feet, great snowmobiling, cross country skiing and 7,000 acres of BLM land for the hunter in the family. Ride your ATVs, its OK! The HOA is small and wonderful to work with.
