Beautiful views from the top of the mountain, away from traffic and crowds. There are 360 degree views of Fisher Peak to the east and the Spanish Peaks to the north. This off grid home is under construction and ready for your personal touch. Hardy board siding, wood decks, Pella windows and Anderson doors make this home the perfect investment, if you are a carpenter, finish it and flip it. Excellent return on your money. There is also a 3Bd/2Ba manufactured home that is rented. The main home is dried in, with metal roof, huge 4 car garage. The solar panels feed 6 giant Battery banks, which easily keep power to both houses year round, and a 220 work shop. 8,000 gallons of fresh water is stored. Ever wanted to own your own mountain? THIS IS IT! Priced to sell.
